3.7. Data transfer

3.7.1. Data transfer to other controllers

Principally, your personal data is forwarded to other controllers only if required for the fulfillment of a contractual obligation, or if we our-selves, or a third party, have a legitimate interest in the data transfer, or if you have given your consent. Particulars on the legal bases can be found in the Section - Purposes of Processing and Legal Bases. Third parties may also be other companies of the Bosch group. When data is transferred to third parties based on a justified interest, this is explained in this data protection notice.

Additionally, data may be transferred to other controllers when we are obliged to do so due to statutory regulations or enforceable administrative or judicial orders.

3.7.2. Service providers (general)

We involve external service providers with tasks such as sales and marketing services, contract management, payment handling, programming, data hosting and hotline services. We have chosen those service providers carefully and monitor them on a regular basis, especially regarding their diligent handling of and protection of the data that they store. All service providers are obliged to maintain confidentiality and to comply to the statutory provisions. Service providers may also be other Bosch group companies.

3.7.3. Payment service providers

We involve external payment service providers.

Depending on the type of payment method you choose during the ordering process, we transfer data used for the processing of payments (e.g., bank account or credit card data) to the financial institution charged with the payment or to payment service providers commissioned by us. Sometimes, payment service providers also collect and process such data as controllers. In this case (payment service providers are data controllers), the data protection notice or privacy policy of the respective payment service provider applies.

3.7.4. Claims management

We reserve the right to have claims collected by external service providers.

Additionally, we have a legitimate interest in selling claims to third parties and in transferring data necessary for the collection of the claim to the respective buyer of the claim. During claim collection, claim buyers act in their own names and are themselves responsible for processing the data. In this respect, the data protection notices of the respective claim buyer apply.

3.8. Transfer to recipients outside the EEA

We might transfer personal data to recipients located outside the EEA into so-called third countries.

In such cases, prior to the transfer we ensure that either the data recipient provides an appropriate level of data protection (e.g. due to a decision of adequacy by the European Commission for the respective country or due to the agreement based on so-called EU model clauses with the recipient) or that you have consented to the transfer.

You are entitled to receive an overview of third country recipients and a copy of the specifically agreed-to provisions securing an appropriate level of data protection. For this purpose, please use the statements made in the Contact section.

3.9. Duration of storage; retention periods

Principally, we store your data for as long as it is necessary to render our Online Offers and the services connected to them, or for as long as we have a justified interest in storing the data (e.g., we might still have a justified interest in postal mail marketing upon fulfillment of a contract). In all other cases, we delete your personal data with the exception of data we must store to fulfill legal obligations (e.g., we are obliged due to retention periods under the tax and commercial codes to have documents such as contracts and invoices available for a certain period of time).

4. Credit assessments

We have a justified interest in performing the credit assessments set forth in this section for the purpose to protect ourselves from bad debts or investments. We might commission companies performing mathematical and statistical analysis to assess the risk of payment default and deliver, within the scope of what is allowed under law, information on the probability of payment defaults. For the assessment, address data may be used, but not exclusively.

In case the result of a credit assessment does not satisfy our requirements, we reserve the right to ask for an assured payment method (e.g. credit card) or to re-fuse to enter into a contract.

A credit assessment is based on automated decision-making. If you disagree with the result, you may submit your point of view in writing to be reviewed by a case handler. In addition, you are entitled to find out about the essential reasons supporting the decision of the respective service provider.

5. Reports made to credit agencies

We report due claims to credit agencies when, despite maturity, no payment has occurred, when the transfer is necessary to preserve our justified interests or justified interests of third parties and when the additional statutory requirements are present. These are

- the enforceability of the claim or the presence of an explicit promissory letter; or
- the issuance of at least two written overdue notices upon maturity of the claim, whereas the first overdue notice must have occurred at least four weeks prior and the debtor has been informed of the possibility of submitting the claim to a credit agency (in this first notice or at least before actual submittal to the credit agency) and the claim has not been disputed; or
- the possibility of the termination of the contractual relationship without previous notice due to arrears and the debtor has been informed about the possibility of submitting the claim to a credit agency.

In addition, we may report behavior contravening the contract (e.g., fraudulent behavior, misuse) to credit agencies as far as this is necessary to preserve our justified interests or the justified interests of third parties and there is no reason to assume that the affected person's interests worthy of protection outweigh or prevail over these justified interests.

10. Social Plugins

In our Online Offers we use so-called social plugins from various social networks. They are individually described in this section.

Hereby the respective provider receives the information that your internet browser accessed from the respective site of our Online Offers - even if you do not have a user account with this provider or are currently not logged into your account. Log files (including the

IP address) are, in this case, directly transmitted from your internet browser to a server of the respective provider and might be stored there. The provider or its server may be located outside the EU or the EEA (e.g. in the United States).

The plugins are standalone extensions by social network providers. For this reason, we are unable to influence the scope of data collected and stored by them.

Purpose and scope of the collection, the continued processing and usage of data by the social network as well as your respective rights and setting options to protect your privacy can be found by consulting the respective social network's data protection notices.
